Modules Undergoing Field Testing

- **Spring 2008**

- 5-b: Application software
- 6-a: Info needs, relevance
- 8-a: Preservation
- 9-e: Intellectual property

- **Summer 2008**

- 5-b: Application software
- 6-d: Interaction design
- 9-c: DL evaluation, user studies

Field Testing Procedures

- **Teacher perceptions**
 - Individual interviews based on earlier inspection criteria
- **Student perceptions**
 - Questionnaires related to course content and student effort and learning
- **Student outcomes**
 - Evaluation of student work completed during the module

Teacher Perceptions

- **Objectives:** Are the objectives appropriate for the topic?
- **Body of knowledge:** Does the module address all areas of the topic that need to be addressed?
- **Readings:** Are the readings the best and most appropriate for the topic?
- **Learning activities:** Are the learning activities appropriate for the topic?
- **Logistics:** Is it feasible to teach the module as it is currently constructed?
- **Overall structure:** Is the module well-structured?

Gained understanding of basic concepts	3.1	2.9	3.2	2.6

1=Strongly disagree, 5=Strongly agree

Next Steps: How You Can Help

- **Develop a module**

- Any that are not yet under development
- Module template available for guidance

- **Review a module**

- Using same criteria incorporated in instructor interviews
- Review online via wiki

- **Field test a module**

- Incorporate in your class
- Participate in interview after module use
